CASE NOS. 2005-00467 AND 2005-00472

Response to First Data Request of Commission Staff Dated January 6, 2006

Question No. 1

Witness: John Wolfram

- Q-1. In Case No. 2005-00467, "Mill Creek to Hardin County Route No. 1" is consistent with page 4 of the application and the maps in Exhibit 2. However, the map tube labeled Case No. 2005-00467 contains maps titled "Mill Creek to Hardin County Route No. 2." The map tube labeled Case No. 2005-00472 contains maps titled "Mill Creek to Hardin County Route No. 1." Was the wrong set of maps put in each map tube?
- A-1. The maps labeled Route 1 are associated with Case No. 2005-00467 and the maps labeled Route 2 are associated with Case No. 2005-00472. These maps were updated as attachments to the Notice and Motion for Corrected Finding of Administrative Completeness filed by the Companies in these dockets on January 27, 2006.

Response to First Data Request of Commission Staff Dated January 6, 2006

Question No. 2

Witness: John Wolfram

- Q-2. In Case Nos. 2005-00467 and 2005-00472, Exhibit 6 contains the names and addresses of the landowners who own parcels that will be crossed by the proposed transmission line. The maps in Exhibit 2, which show the parcel lines, need to be cross referenced with the list of parcel owners. Each parcel needs to be assigned a unique identifier and labeled with that identifier on the map, and then the unique identifier for the parcel needs to be included in the table on Exhibit 6. As issues arise during the proceeding, the Commission needs to associate the landowner with the address of the property and the parcel on the map. Therefore, provide new maps for Exhibit 2 and new tables for Exhibit 6. The maps for Exhibit 2 should be large maps (scale of 1 inch = 1,000 feet), as well as a set of *.pdf* files on a CD. (There is no need for 11"x17" versions, since the parcel identifiers would not be legible.)
- A-2. The requested information is provided in the attachments to the Notice and Motion for Corrected Finding of Administrative Completeness filed by the Companies in these dockets on January 27, 2006.

Question No. 3

Witness: John Wolfram

- Q-3. Provide one set of *.pdf* files on CDs of the following exhibits:
- a. Exhibit 3, which has a diagram of seven types of structures;
 - b. Exhibit 4, "Composite Map (All Routes Considered)"; and
 - c. Exhibit CMD-1, "Route Analysis and Evaluation" by Linear Projects, Inc.

Assuming that the above exhibits are identical for Case No. 2005-00467 and Case No. 2005-00472, one set should be provided. If the exhibits are not identical, provide one set of *.pdf* files for each case.

- A-3. The requested files are provided in the attachments to the Notice and Motion for Corrected Finding of Administrative Completeness filed by the Companies in these dockets on January 27, 2006. The files are identical for both cases, so only one set of files is provided.
