PUBLIC SERVICE
COMMISSION

Mrs O'Donnell,

Hello, I am writing to voice my concern over the utility lines that are being considered in our area. I would like to intervene in this matter, and would like to testify that I feel like this would hurt my property. One of our farms already has power lines going through it, and the new ones would encumber our farms use. Our other farm has a cemetery that I am concerned about. Please feel free to contact me at (270) 351-0440 or 862-4838. Thank you.
