Dear Sirs:

This is a protest to the proposed rate increase offered by Kinzer Drilling Co. LLC
1555 Ky. Rt. 80
Prestonsburg, Ky. 41653

I am a farm top customer and the four (4) well field from which I get my gas has been shut in for the biggest part of this summer and fall, so it could not be for a demand cause, I would think that a fair price increase would be based on what a social security recipients increase of benefits is. Which is determined by the cost of living index.

No Way Kinzer Drilling can justify a 100+ % increase. I would ask that you consider the elderly who must heat their homes, buy medication and food on a limited income when this outrageous price increase proposal comes before you,

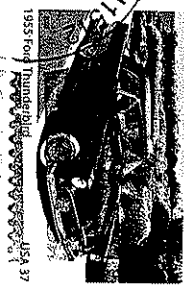

Thank you,
Lawrence E. Cook
