Dear Sirs:

Case No. 2005-00478

I am sending you this letter to challenge the notice of proposed rate change for farm tap customers of J. W. Kinzer Drilling Company. They are currently proposed with a 50% increase in their current rate.

When J. W. Kinzer Drilling Company drilled three wells on my property, the benefit that I was to receive for their drilling of these wells and the associated destruction of these well sites, was that I would be given a farm tap rate which would be a cost savings to me on my gas usage. The amount of damage that was done by Kinzer Drilling, the current wells that are in place, the access that they have to these wells, and the \$500.00 per well site that was given to me at the time of drilling, has not changed any whatsoever. So why now am I faced with a 50% increase in my estimated monthly cost of gas that I utilize. I see no reason why such a large increase should be allotted to J. W. Kinzer Drilling Company. I protest this increase as I can see no reason why they would ask for such a dramatic increase in farm tap usage. The proposed benefit that I was to receive now has turned out not to be such a good deal after all. But, of course, this is much too late, since they have already drilled three wells on my property. It costs J. W. Kinzer no more to provide my gas than it did last week. The wells are in place. The pipes are in place. There is no back filling required with the line. Yet, I am faced with a 50% increase as proposed by this company.

I strongly oppose this increase. I would be glad to appear before the Public Service Commission to express my dismay with such a high rate increase from any company.

Sincerely,

Van S. Breeding, M. D.
Farm Tap Customer, J. W. Kinzer Drilling Co.
