51. Please refer to the testimony of Mr. Gardner at page 5 at lines 20 and 21: “No material changes are expected to occur to the Regulated Entities financial statements as a result of the separation and merger.” Please explain what is meant by “material” and provide detail about the changes that are contemplated.

Response: Applicants currently have not identified and do not expect any changes.

Response provided by Brent Whittington.

52. Please refer to the testimony of Mr. Gardner at page 5 at lines 22 and 23. “Thus, accounting for day-to-day transactions within the Regulated Entities will remain essentially the same.” Please explain what is meant by “essentially” and provide detail about the changes that are contemplated.

Response: None currently identified.

Response by Jeffery Gardner.

53. Please refer to the testimony of Mr. Gardner at page 6 at lines 6 and 7. “Except for a name change from Alltel to a new brand, the Regulated Entities will remain essentially unaffected by the separation and merger.” Please explain what is meant by “essentially” and provide detail about the changes that are contemplated.

Response: No changes other than the name change are contemplated.

Response provided by Jeffery Gardner.

54. Please refer to the testimony of Mr. Gardner at page 6 at lines 7 through 9. “The assets, liabilities, revenues and expenses of the Regulated Entities will remain essentially the same after the separation and merger, ...” Please explain what is meant by “essentially” and provide detail about the changes that are contemplated.

Response: “Essentially” means that changes, if any, will not exceed 2%-5% in total.

Response provided by Brent Whittington.

55. Please refer to the testimony of Mr. Gardner at page 6 at lines 9 through 12 wherein he states that the “local operations in Kentucky will continue to be managed and operated as before, except for an improved level of support received from the centralized services from the New Holding Company and singular focus on wireline.” Please explain in detail the improved level of support.

Response: See response to question 44.

56. Please refer to the testimony of Mr. Gardner at page 6 at line 12 and 13. “Thus, the financial results for the Regulated Entities will not be materially affected.” Please explain what is meant by “materially affected” and provide details about the changes that are contemplated.

Response: “Materially affected” means that changes, if any, will not exceed 2%-5% in total.

Response by Brent Whittington.

57. Please refer to the testimony of Mr. Gardner at page 6 at lines 20 through 22: “Since the Regulated Entities will not experience any material change in their local Kentucky operations and overall financial condition as a result of the separation and merger...” Please explain what is meant by “material” and provide details about the changes that are contemplated.

Response: See response to question 56.

58. Please refer to the testimony of Mr. Gardner at page 8 at lines 11 through 12 wherein he states that the New Holding Company will “enhance the network, related products, and services of its wireline subsidiaries, including the Regulated Entities.” Explain in detail this enhancement.

Response: See responses to questions 27, 32, 33, 44, and 45.

59. Please refer to the testimony of Mr. Gardner at page 8 at line 13 wherein he states that the New Holding Company will “fund technology investments.” Please explain in detail the funding of technology investments.

Response: The operating companies will rely on the holding company to raise capital that will be used to upgrade the network.

Response provided by Jeffery Gardner.

60. Please refer to the testimony of Mr. Gardner at page 9 at lines 16 and 17 wherein he states that the New Holding Company will “continue to provide quality products and services, and invest appropriately in the future.” Please explain in detail the “appropriate investment” contemplated.

Response: “Appropriate” refers to that amount of capital and expenditure of capital in the network, services and technology that are determined by the company to be required, desired or necessary by customers and market demand in order to retain existing customers and attract new customers. For example, if it is determined that more and faster broadband is necessary and required by customers and customers are willing and ready to pay for such service, then that would be an “appropriate” investment. If video services are what customers demand and need, then video service related investments might be “appropriate”. Alternatively, if customers continue to want, need and require basic telephone service, then that service and the maintenance of its quality are likely to be “appropriate” investments. “Appropriate,” therefore, is what the market demands.

Response provided by Jeffery Gardner.

61. Please refer to the testimony of Mr. Gardner at page 10 at lines 15 and 16 wherein he states that “approximately \$40 million of possible net savings” have been identified. Is there a mechanism in place whereby those savings will be tracked on an itemized and annual basis or by some other means? If so, please provide details regarding this mechanism.

Response: No. It is anticipated that an Excel spreadsheet will be created to track the net savings realized by month in order to compare to our originally targeted cost savings.

Response provided by Brent Whittington.

62. Please refer to the testimony of Mr. Gardner at pages 10 and 11. The witness states that “to the extent that synergies result in a net reduction of overall corporate expense, then those savings or cost reductions would flow through to the subsidiaries (including the Regulated Entities) in the form of reduced corporate allocations.”

- a. Is it not true that this “allocation” is an expense which the subsidiary, including the Regulated Entities, would not have to bear which in turn would lower its overall costs of operation?

Response: See response to question 7(b).

Response provided by Brent Whittington.

- b. Why would the customer base not be entitled to a sharing in the lowering of operation costs?

Response: See response to question 7(b)

Response by Brent Whittington.

63. Please refer to the testimony of Mr. Gardner at page 11 at lines 7 and 8 wherein he states the New Holding Company has received commitments from Merrill Lynch and J.P. Morgan to fund its debt. Please provide copies of same.

Response: Commitment letters from Merrill Lynch and J.P. Morgan were provided as Exhibit 7 to the Amended and Restated Application.

64. Please refer to the testimony of Mr. Gardner at page 11 at line 15. Please provide a copy of the solvency opinion from Duff & Phelps. If it is not yet available, please state the anticipated date of receipt, and please provide a copy when it does become available.

Response: A copy of the draft solvency opinion will be available later this week and provided immediately thereafter. It is labeled draft because the final opinion will not be required by Alltel until a future board meeting immediately prior to close of the transactions at which time the Alltel Board will approve the dividends and distributions required to consummate the transactions. The draft opinion, however, provides definitive conclusions regarding solvency and is the result of a completed analysis by Duff and Phelps, subject only to being brought forward for passage of time to the date of the next Alltel Board meeting and then made final.

Response provided by Brent Whittington.

65. Please refer to the testimony of Mr. Gardner at page 13 at lines 19 through 22. “While there are many factors that are used to determine a debt rating, these comparisons suggest that the New Holding Company debt is likely to receive a debt rating somewhere between BB- and BB+, or slightly below investment grade.” Should the Commission agree to a transaction which would result in a lower than investment grade rating of a Holding Company, a company whose debt is secured by the entire holdings of the regulated company subject to the Commission’s jurisdiction?

Response: Yes. Joint Applicants have demonstrated that the new holding company will have sufficient cash flows to service its debt, invest in its network and pay dividends to its shareholders. In addition, there are many publicly traded rural telephone companies whose debt is rated below investment grade. The factors used to analyze the debt for rating purposes include the emergence of intermodal competition, changes in technology and the effects of continued outdated forms of regulation and oversight on local exchange companies as if the telecommunications marketplace was still a monopoly.

Response provided by Jeffery Gardner.

66. Please refer to the testimony of Mr. Gardner at page 14, lines 1 through 6. The witness states that the subsidiaries of the New Holding Company, including its Regulated Entities, would not be responsible for “servicing the debt” of the new Alltel (currently the pre-merger Alltel Corporation) issued to the New Holding Company for the benefit of the lenders to fund the transaction. However, the witness then states that all of the subsidiaries of the New Holding Company are required to guarantee the debt and grant liens on their assets in favor of the lenders. Are these statements contradictory; i.e., Alltel would not be financially responsible for the new debt but a lender would have the legal right to seek control over Alltel in the event of a default under the loan?

Response: No, the statements do not contradict each other and are accurate. “Servicing” the debt refers to making payments on the debt as agreed and due in the ordinary course. A guarantee does not require or obligate the guarantor to make payments on the debt in the ordinary course of business and only in the unlikely event of a default by the originator of the debt, *i.e.* the holding company, would the guarantor have any obligation on the debt.

Response provided by Jeffery Gardner.

67. Please state whether, in any of the other states in which Joint Applicants operate, their subsidiaries and affiliates (including those of the New Holding Company) in those states will be required to guarantee the debt of the New Holding Company and grant liens in favor of the lenders?

Response: All subsidiaries in all states will be required to guarantee the debt and grant liens in favor of the lenders.

Response provided by Jeffery Gardner.

- a. If there are any subsidiaries and affiliates that will not have this requirement, or have any different obligations, whether financial or otherwise, why not? Explain in detail.

Response: No.

Response provided by Jeffery Gardner.

- b. If your answer to subpart a., above is “yes”, explain why the subsidiaries or affiliates operating in other states do not face the same requirement that the subsidiaries or affiliates operating in Kentucky face.

Response: Not applicable.

- c. Are any of the terms to which the Kentucky-based subsidiaries or affiliates of Joint Applicants have agreed, or will agree, different in any way from the terms agreed to by subsidiaries or affiliates based in other states? If so, explain in detail.

Response: No.

Response provided by Jeffery Gardner.

68. Please refer to the testimony of Mr. Gardner at page 12 lines 9 through 12. Please provide a reconciliation of the approximate \$7.7 billion asset amount with the \$11.2 billion total enterprise value which includes an equity value of \$5.7 billion and debt of \$5.5 billion.

Response: Total assets are comprised of cash and the book value of investments, goodwill, property plant and equipment and other assets. The details in support of the \$7.7 billion in assets was provided in the 2005 pro-forma balance sheet attached to Mr. Gardner's testimony as Exhibit 1. The total enterprise value is the sum of the equity value and the debt to be incurred. The equity value is derived by multiplying the number of shares outstanding of the Merged Wireline Business (approximately 475 million shares) by the expected trading price of the stock (approximately \$12 per share), resulting in an equity value of \$5.7 billion. Long term debt of \$5.5 billion is the amount of debt the Merged Wireline Business is expected to incur and that amount was also provided in the 2005 pro-forma balance sheet attached to Mr. Gardner's testimony as Exhibit 1.

Response provided by Brent Whittington.

69. In the event the New Holding Company defaults to a lender, will Alltel be financially liable for the new debt owed to the lender?

Response: No.

Response provided by Brent Whittington.

70. Please refer to the testimony of Mr. Gardner at page 17 at lines 1 through 7. The witness states that the interest rate reduction “translates to an annual estimated savings of approximately \$25 to \$50 million,” and then lists a number of areas where the savings or money can be applied. Did the Regulated Entities consider a rate reduction for its customers? If not, why not?

Response: The exact application of the expected interest savings has yet to be determined. See response to question 7(b).

Response provided by Brent Whittington.

71. Please refer to the testimony of Mr. Gardner at page 17 at lines 10 through 13. Please describe with detail the relationship, including all contractual terms, conditions, and services, between the New Holding Company and the operating subsidiaries relating to centralized services, cash management and similar matters.

Response: No material change. Same terms as presently effective except all subsidiaries will guarantee the cash management agreement.

Response provided by Jeffery Gardner.

72. Please refer to the testimony of Mr. Gardner at page 19 at lines 7 through 9. He states that “some of the shared Alltel Corporation assets will be transferred to the New Holding Company.”

a. Please provide a detailed schedule showing the assets and their worth.

Response: Attached hereto. This schedule is considered proprietary and confidential.

Response provided by Brent Whittington.

b. Also, if Alltel Corporation has a vested financial interest in the item, will it be duly compensated for the transfer?

Response: Yes.

Response provided by Brent Whittington.

TOTALS												

CONFIDENTIAL

73. Please refer to the testimony of Mr. Gardner to the question presented on page 20.
- a. At page 20, line 7, please explain what is meant by “no material impact to the Regulated Entities financial statements”, and explain what impact will/might occur.

Response: “No material impact” means that changes, if any, will not exceed 2%-5% in total.

Response provided by Brent Whittington.

- b. At page 20, line 13, please explain what “other services” the Regulated Entities will receive.

Response: None identified presently.

Response provided by Jeffery Gardner.

- c. At page 20, lines 14 through 16, please explain what the witness means when he states that the changes to costs “are expected to be minimal.”

Response: “Are expected to be minimal” means that changes, if any will not exceed 2%-5% in total.

Response provided by Jeffery Gardner.

- d. At page 20, lines 23 and 24, please explain in detail what the witness means when he says the concentration of effort will “yield significant benefits.”

Response: See responses to questions 27, 32, 33, 44, 45.

- e. At page 21, lines 1 through 3, please explain in detail what is meant by “the merger of the New Holding Company with Valor significantly improves the economics for the corporate support services through increased scale and scope.” In the explanation, please itemize all items and assign a value, whether actual, estimated or projected.

Response: See response to question 8.

74. Please refer to the testimony of Mr. Gardner at page 21 at lines 16 through 20. If the New Holding Company and Alltel Corporation ultimately decide to “negotiate agreements for continued receipt and provision of any services which both parties determine should be continued”, will these agreements be filed with the Commission?

Response: Only those agreements required to be filed pursuant to §§251-252 of the Telecommunications Act of 1996.

Response provided by Cesar Caballero.

75. Please refer to the testimony of Mr. Gardner at page 22 at lines 4 through 6. Please explain in detail what he means when he says “.the Regulated Entities are not appreciably affected through the allocations, because the allocations will not appreciably change.” The explanation should provide more specificity insofar as a quantification.

Response: “Appreciable affected” means that changes, if any, will not exceed 2%-5% in total.

Response provided by Brent Whittington.

76. Please refer to the testimony of Mr. Powell at page 7 at lines 18 through 20. “The Merged Wireline Business will increase its focus on providing a full portfolio of high quality services to its residential and business customers.” Please explain and elaborate on this statement with definitive examples as they are known at this time.

Response: See response to question 33.

77. Please refer to the testimony of Mr. Powell at page 7 at lines 18 through 22 wherein he states that the resulting Merged Wireline Business will “. . . increase its focus on providing a full portfolio of high-quality services to its residential and business customers. Through its subsidiaries, the new wireline-focused company will continue to meet the needs of local exchange and long distance customers throughout its service areas.” Please explain and elaborate on this statement with definitive examples as they are known at this time.

Response: See response to question 33.

78. Please refer to the testimony of Mr. Powell at page 9 at lines 16 through 19. Will any of the assets owned by Kentucky ILEC's be transferred? If so, will compensation be made to the Kentucky ILEC for the transfer? Please provide an itemized list of all such assets to be transferred together with their estimated value, as this information is known at this time.

Response: No asset owned by the Kentucky ILECs will be transferred.

Response provided by Dan Powell.

79. Please refer to the testimony of Mr. Powell at page 12 at lines 4 through 7. Please explain in detail what similar centralized management services the Merged Wireline Business will receive after the transfer and compare the explanation with those services which the joint applicants currently receive.

Response: See response to question 40.

80. Please refer to the testimony of Mr. Powell at page 14 at lines 9 through 11. “Furthermore, the senior executive team of the Merged Wireline Business will be comprised of many of the same Alltel executives that have guided Alltel’s local operations in the past.” What changes are known or anticipated to the senior management team?

Response: See response to question 1.

81. Will the transaction have any ramifications for any agreements with competing local exchange carriers? If so, please explain in detail.

Response: No.

Response provided by Cesar Caballero.

82. Will the transfer have any ramifications upon the jurisdiction or authority of the Kentucky Public Service Commission over the Joint Applicants?

Response: No.

Response provided by Cesar Caballero.

83. Please refer to the testimony of Mr. Powell at page 15 at lines 6 through 10. “The establishment of the Merged Wireless Business as part of an independent, stand-alone wireline-centric corporation serves the public interest by allowing Alltel’s separated ILECs to focus squarely on building their local wireline operations to provide a full range of high quality services to local residential and business customers.” Is this not being done currently? If yes, how will it be improved? If not, why not?

Response: See responses to questions 42, 44, and 45.

84. Please refer to the testimony of Mr. Powell at page 15 at lines 13 through 15. “As I noted previously, the separation and merger, other than a change of name, will be virtually transparent to customers, and service quality and the customer experience will remain high priorities.” What does the witness mean when he says “virtually” transparent? Please be specific in your explanation and provide definitive details.

Response: See response to question 43.

85. On February 16, 2006, the Joint Applicants filed with the Kentucky Public Service Commission a "Petition for Confidential Treatment." By way of electronic mail received in the Attorney General's Office on March 2, 2006, counsel for Joint Applicants stated he was withdrawing said Petition, and attached thereto a .pdf document entitled "Former Confidential Exhibit 1."

- a. Please state the reason(s) why the Joint Applicants previously held out the material referenced above as being confidential, and explain in detail why the Joint Applicants decided to make such information public.

Response: Because the projected financial information was not yet made universally public in accordance with SEC rules. After Valor publicly filed its Form S-4 form with the Securities and Exchange Commission, the projected financial information became publicly available.

Response provided by Cesar Caballero.

- b. Please explain whether Joint Applicants will change their standards regarding what treatment they deem to be confidential going forward in instant case, and if so, please explain what those standards will be.

Response: No.

Response provided by Cesar Caballero.

86. In the application and accompanying testimonies, the Joint Applicants make certain assertions. In the event the Kentucky Public Service Commission approves the Joint Applicants' application, would the Joint Applicants agree and adhere to the following commitments (note: this question should not be construed as the Attorney General's acquiescence to the contemplated transaction):

Response: While in order to succeed in a competitive market, Joint Applicants cannot accept unreasonable or severely limiting conditions that treat it differently from its competitors, any discussion of such must be addressed in terms of a full and final settlement and disposition arrangement between Joint Applicants, the Commission, and all intervenors.

Response provided by Jeffrey Gardner.

- a. Both the surviving wireless company, and the Merged Wireline Business, regardless of their respective locations, shall provide specific company contacts and work with the Attorney General's Office, Commonwealth of Kentucky, on any and all complaints which the Attorney General may receive. Furthermore, specific protocol and timeframes shall be established by both parties to resolve complaints or disputes expeditiously.
- b. The Joint Applicants will provide copies of all applications, notices, final approval orders, or other regulatory notifications received from the SEC, the Federal Communications Commission, and any and all other regulatory bodies including but not limited to state utility commissions having jurisdiction over any of the Joint Applicants, as well as from any and all regulatory bodies, both federal and state, that will have jurisdiction over the Merged Wireline Business, to the extent that these documents have not already been provided in this case.
- c. Within 30 days of the date of the final order in this case, the Joint Applicants will file a report with the Kentucky Public Service Commission detailing their actual expenditure levels for economic development activities and civic and charitable activities for the past three calendar years. The report will also include the current budgets for the same activities for the years 2006 through 2007, and will include estimates or projections for any such sums the Merged Wireline Business will expend. Further, Joint Applicants will provide the Attorney General with a copy of such report.
- d. The contemplated transaction will not impair, impede, nor prohibit the ability and capabilities of the Kentucky ILECS, Alltel's wireless operations, and the Merged Wireline Business from meeting their obligations to provide adequate, efficient and reasonable service to their Kentucky customers.
- e. The contemplated transaction will not detract from the benefits that customers of the Joint Applicants currently receive.

- f. The contemplated transaction will not result in higher rates or higher charges of any type or sort for the Joint Applicants' Kentucky-based customers.
- g. The Joint Applicants agree to seek approval from the Kentucky Public Service Commission prior to transferring any asset currently based in Kentucky having an original book value in excess of \$5 million.
- h. Costs for the contemplated transaction shall not be pushed down to Kentucky ILECs, nor in any manner to any of the Joint Applicants' ratepayers.
- i. No change in control payments will be allocated to the Joint Applicants' Kentucky ratepayers.
- j. Any costs associated with early termination of any of Joint Applicants' Kentucky-based staff will not be levied against their Kentucky ratepayers.
- k. Any additional administrative costs incurred in order to comply with the financial and accounting standards of any other regulatory body, whether federal or state, will not be borne by Kentucky ratepayers.
- l. The Joint Applicants commit to maintaining a sound and constructive relationship with those labor organizations that may represent certain of their employees; to remain neutral respecting an individual's right to choose whether or not to be a member of a trade union; to continue to recognize the unions that currently have collective bargaining agreements with the Joint Applicants (as well as those unions that could or may have agreements with the Merged Wireline Business), and to honor those agreements.
- m. The Joint Applicants agree to filing with the Commission and the Attorney General copies of their annual reports to their respective shareholders.
- n. Before implementing any management practice, the Joint Applicants commit to taking into full consideration the related impacts on levels of customer service and customer satisfaction, including any negative impacts resulting from any workforce reductions.
- o. The Joint Applicants agree that the contemplated transaction will not cause any material change in their financial condition. Further, the Joint Applicants will remain essentially unaffected by the contemplated transaction.
- p. In the event of a default by the New Holding Company and a subsequent attempt by the Lenders to collect on the guarantees and liens, the Lenders would have to seek approval from the Kentucky Public Service Commission before attempting to recoup any losses.

- q. The existence of the guarantees will not affect the relationship between the New Holding Company and the operating subsidiaries relating to centralized services, cash management or similar matters.
- r. The distribution of any Alltel Corporation assets that provide service to both wireline and wireless business, and related transactions, will not have a substantial or long-term effect on the New Holding Company.
- s. Any changes in the centralized services provided to the Regulated Entities by the New Holding Company will not cause any additional costs to the Regulated Entities.
- t. At the end of the transitional period, the New Holding Company and Alltel Corporation will discontinue the transitional operations and associated agreements and begin utilizing their own respective operating platforms and assets, or if in their best interest, negotiate agreements for continued receipt and provision of any services which both parties determine should be continued.
