Case File # 2006-00028

I am opposed to the sewer rate increase. We pay 19.05 now. I know an increase is going to happen but it should not be over a 5.00 increase. The surcharge should not be over 4.00 or 5.00.

If Farndale get what they want my water, sewer and surcharge would be over 80.00 a month. When you are retired and on a fixed income that makes it harder for the other people to meet their bills.

What I pay now		New rate	
water	16.38	water	16.38
tax	.49	tax	.49
Sewer	19.05	Sewer	35.59
	<u>35.92</u>	Surcharge	<u>27.92</u>
			80.38

case #2006-00028

I am opposed to the rate increase. I think it is to much. In these days and time a rate increase is expected, but the one Fairdale is wanting is off the wall, with new homes going in they are making money.

Thank you

Frankfort, Ky. 40601

This is what it should be:

16.38	water
.49	tax
24.05	sewer
<u>4.00</u>	surcharge
44.92	a month

This looks alot better to me and I think the rest of the people in Farmdale would be alot happier also.

Thank you
