Dear Beth O'Donnell:  
Subject: File #2006-00028

I would like to express my concern regarding the proposed rate increase by Farmdale Development Corporation Sewage Treatment Plant. According to the correspondence that I have received from the Corporation, they have requested an increase from \$19.05 to \$35.59 which is an increase of 86.82%. I think that an increase of this magnitude is indeed excessive. In addition to the huge increase, they also are seeking a monthly surcharge of \$27.92. I have tried to contact Farmdale Development Corporation Sewage Treatment Plant to inquire into the purpose of this surcharge and was told that I would be contacted by Farmdale Development Corporation to explain the purpose and use of this charge. In addition to having no knowledge of what this fee is, it also seems exorbitant to assess a surcharge that is more than the current \$19.05 sewage fee.

Respectfully,  
Frank D. Bush
