Case file # 2006-00058

Beth McDonnell I am writing this letter concerning the Farmdale Sewer Rate increase. I am opposing this because I think an 86.82% increase at one time is uncalled for. Also their proposing a \$27.92 monthly surcharge on top of that as I understand it. It seems like to me with everything else going up as much as it has everybody else wants to jump on the band wagon too. I think were suffering enough this winter with the cost of energy, gasoline and heating bills that we cant afford another increase right now.
