

To Whom it may concern:

As a resident of the Farmdale area, I am writing in opposition of the sewer rate increase.

This is in reference to file # 2006-00028.

The proposed increase is too much. Of course, I would prefer no increase at all, but if an increase is going to happen then I feel it should be much smaller. We already pay too much now.

I would ask that it be reconsidered before making such a big increase.

Thank you.
