270-566-0217

Thank you,

The implications for this is great since we have a small campground & cabins + our guests will now have prone service - if this service continues we look forward to gradually having service - we can be out on our property & still receive calls for reservations & guide service.

We are receiving service on our cell phones at our home - 310 Kaufman Rd. - we believe that it is due to a tower recently located on 127 near the dam.

News weekender.
