AND NECESSITY TO CONSTRUCT, FINANCE)
AND INCREASE RATES PURSUANT TO)
KRS 278.023.)**

RESPONSE TO FIRST DATA REQUEST

The Bath County Water District ("Applicant"), by counsel, files this Response to First Data Request of Commission Staff:

1. The Application previously filed with the Commission contained an incomplete description of the work involved with Contracts 7 and 8. Contract 7 provides for the rehabilitation of three existing tanks: (i) the Ore Mines Road 250,000 gallon ground storage tank; (ii) the Perry Road 100,000 gallon ground storage tank; and (iii) the Owingsville 100,000 gallon elevated storage tank. Contract 8 provides for the demolition of the existing 64,000 gallon Preston storage tank and the construction of a 234,000 gallon ground storage tank in the Olympia area of Bath County.

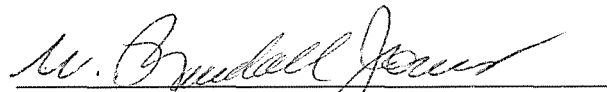

2. The demolition of the 64,000 gallon Preston storage tank was unintentionally omitted from paragraph 4 of the Application.

3. The Engineer for the Applicant has provided the Commission with the relevant information relating to Contracts 7 and 8.

4. Contract 9 provides for the extension of 3-inch, 4-inch and 8-inch water mains to the areas of Mudlick, Elm, Turly and Prickley Ash.

The answers to the First Data Request were provided by James C. Thompson, P.E., O'Brien & Gere Engineers, 1019 Majestic Drive, Suite 110, Lexington, Kentucky 40513, Telephone: (859) 223-0137, extension 12.

Respectfully submitted this 8th day of June, 2006.

W. Randall Jones, Esq.
Rubin & Hays
