PUBLIC SERVICE COMMISSION

CERTIFICATE OF COMPLETED NOTICE

To: The Public Service Commission, Frankfort, Kentucky

Pursuant to the Rules Governing Tariffs effective August 4, 1984, I hereby certify that I am John R. McCall, Executive Vice President, General Counsel and Corporate Secretary, E.ON U.S. Services, Inc. for Kentucky Utilities Company ("KU" or "Company"), a utility furnishing retail electric service within the Commonwealth of Kentucky which, on the 23rd day of June 2006, filed an application with the Kentucky Public Service Commission to issue an order granting KU a Certificate of Public Convenience and Necessity ("CCN") for the construction of certain Selective Catalytic Reduction Nitrogen Oxide emission control technology at Ghent Unit 2 and approving an amended compliance plan for purposes of recovering the costs of new and additional pollution control facilities through its Environmental Surcharge Tariff as required by KRS 278.183, as follows:

That more than twenty (20) customers will be affected by said change by way of an increase in their bills, and that on the 9th day of June 2006 there was delivered to the Kentucky Press Association, an agency that acts on behalf of newspapers of general circulation throughout the Commonwealth of Kentucky in which customers affected reside, for publication therein once a week for three consecutive weeks prior to the effective date of said change, a notice of the

filing of KU's Application in this case. Publication of this notice is now complete. Affidavits confirming this publication and copy of said notice are enclosed in the envelope marked Exhibit A.

On the 23rd day of June 2006, notice was exhibited for public inspection at the offices and places of business of the Company in the territory affected thereby, to wit, at the places listed on Exhibit B, and that the same will be kept open to public inspection at said offices and places of business in conformity with the requirements of 807 KAR 5:011, Section 8.

In addition, Kentucky Utilities Company included a general statement explaining the application in this case with the bills for all Kentucky retail customers during the course of their regular monthly billing cycle beginning on or about June 19, 2006. A copy of the general statement is attached as Exhibit C hereto.

Given under my hand this 18th day of July 2006.

John R. McCall
Executive Vice President, General Counsel
and Corporate Secretary
E.ON U.S. Services Inc., for

NOTICE TO CUSTOMERS OF
KENTUCKY UTILITIES COMPANY

RECOVERY BY ENVIRONMENTAL SURCHARGE OF KU'S 2006
ENVIRONMENTAL COMPLIANCE PLAN

PLEASE TAKE NOTICE that on June 23, 2006, Kentucky Utilities Company ("KU") will file with the Kentucky Public Service Commission ("Commission") in Case No. 2006-00206, an Application pursuant to Kentucky Revised Statute 278.183 for approval of an amended compliance plan ("KU's 2006 Environmental Compliance Plan") for the purpose of recovering the capital costs and operation and maintenance costs associated with new pollution control facilities through an environmental surcharge on customers' bills beginning February 2007, under KU's existing rate mechanism known as the environmental cost recovery surcharge or "Electric Rate Schedule ECR."

Federal, state and local environmental regulations require KU to continually build and upgrade equipment and/or facilities in order to operate in an environmentally sound manner. Specifically, KU is seeking Commission approval of a Certificate of Public Convenience and Necessity ("CCN") to construct a new Selective Catalytic Reduction System ("SCR") for Ghent Unit 2 at the Ghent Generating Station in Ghent, Kentucky to comply with federally mandated Nitrogen Oxides requirements. Additionally, KU is seeking recovery of costs associated with environmental projects necessary for compliance with the Federal Clean Air Act, Clean Air Interstate Rule, Clean Air Mercury Rule, and the Clean Air Visibility Rule. These additional projects primarily relate to installation of an SCR system on Ghent Unit 2, mercury emissions monitoring, precipitator upgrades, Air Quality Control System equipment necessary to operate Trimble County Unit 2 within the approved environmental limitations and sulfur trioxide mitigation on electric generating units which burn high sulfur coal. The total capital cost of these new pollution control facilities is estimated to be \$325 million.

The estimated impact on a residential customer using 1,000 kilowatt hours per month is expected to be an initial monthly increase of \$0.82 for KU customers during 2007, with the maximum monthly increase expected to be \$2.67 during 2010.

The Environmental Surcharge Application described in this Notice is proposed by KU. However, the Public Service Commission may make an order modifying or denying KU's Environmental Surcharge Application. Such action may result in an environmental surcharge for consumers other than the environmental surcharge described in this Notice.

Any corporation, association, body politic or person may, by motion within thirty (30) days after publication, request leave to intervene in Case No. 2006-00206. That motion shall be submitted to the Public Service Commission, 211 Sower Blvd., P.O. Box 615, Frankfort, Kentucky, 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application and testimony by contacting Kentucky Utilities Company at 220 West Main Street, Louisville, Kentucky, 40202, Attention: Kent W. Blake, Director, State Regulation and Rates. A copy of the Application and testimony will be available for public inspection at KU's offices where bills are paid after June 23, 2006.

NOTICE TO CUSTOMERS OF
KENTUCKY UTILITIES COMPANY

RECOVERY BY ENVIRONMENTAL SURCHARGE OF KU'S 2006
ENVIRONMENTAL COMPLIANCE PLAN

PLEASE TAKE NOTICE that on June 23, 2006, Kentucky Utilities Company ("KU") filed with the Kentucky Public Service Commission ("Commission") in Case No. 2006-00206, an Application pursuant to Kentucky Revised Statute 278.183 for approval of an amended compliance plan ("KU's 2006 Environmental Compliance Plan") for the purpose of recovering the capital costs and operation and maintenance costs associated with new pollution control facilities through an environmental surcharge on customers' bills beginning February 2007, under KU's existing rate mechanism known as the environmental cost recovery surcharge or "Electric Rate Schedule ECR."

Federal, state and local environmental regulations require KU to continually build and upgrade equipment and/or facilities in order to operate in an environmentally sound manner. Specifically, KU is seeking Commission approval of a Certificate of Public Convenience and Necessity ("CCN") to construct a new Selective Catalytic Reduction System ("SCR") for Ghent Unit 2 at the Ghent Generating Station in Ghent, Kentucky to comply with federally mandated Nitrogen Oxides requirements. Additionally, KU is seeking recovery of costs associated with environmental projects necessary for compliance with the Federal Clean Air Act, Clean Air Interstate Rule, Clean Air Mercury Rule, and the Clean Air Visibility Rule. These additional projects primarily relate to installation of an SCR system on Ghent Unit 2, mercury emissions monitoring, precipitator upgrades, Air Quality Control System equipment necessary to operate Trimble County Unit 2 within the approved environmental limitations and sulfur trioxide mitigation on electric generating units which burn high sulfur coal. The total capital cost of these new pollution control facilities is estimated to be \$325 million.

The estimated impact on a residential customer using 1,000 kilowatt hours per month is expected to be an initial monthly increase of \$0.82 for KU customers during 2007, with the maximum monthly increase expected to be \$2.67 during 2010.

The Environmental Surcharge Application described in this Notice is proposed by KU. However, the Public Service Commission may make an order modifying or denying KU's *Environmental Surcharge Application*. Such action may result in an environmental surcharge for consumers other than the environmental surcharge described in this Notice.

Any corporation, association, body politic or person may, by motion within thirty (30) days after publication, request leave to intervene in Case No. 2006-00206. That motion shall be submitted to the Public Service Commission, 211 Sower Blvd., P.O. Box 615, Frankfort, Kentucky, 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application and testimony by contacting Kentucky Utilities Company at 220 West Main Street, Louisville, Kentucky, 40202, Attention: Kent W. Blake, Director, State Regulation and Rates. A copy of the Application and testimony will be available for public inspection at KU's offices where bills are paid after June 23, 2006.

PLEASE TAKE NOTICE that on June 23, 2006, Kentucky Utilities Company ("KU") filed with the Kentucky Public Service Commission ("Commission") in Case No. 2006-00206, an Application pursuant to Kentucky Revised Statute 278.183 for approval of an amended compliance plan ("KU's 2006 Environmental Compliance Plan") for the purpose of recovering the capital costs and operation and maintenance costs associated with new pollution control facilities through an environmental surcharge on customers' bills beginning February 2007, under KU's existing rate mechanism known as the environmental cost recovery surcharge or "Electric Rate Schedule ECR."

Federal, state and local environmental regulations require KU to continually build and upgrade equipment and/or facilities in order to operate in an environmentally sound manner. Specifically, KU is seeking Commission approval of a Certificate of Public Convenience and Necessity ("CCN") to construct a new Selective Catalytic Reduction System ("SCR") for Ghent Unit 2 at the Ghent Generating Station in Ghent, Kentucky to comply with federally mandated Nitrogen Oxides requirements. Additionally, KU is seeking recovery of costs associated with environmental projects necessary for compliance with the Federal Clean Air Act, Clean Air Interstate Rule, Clean Air Mercury Rule, and the Clean Air Visibility Rule. These additional projects primarily relate to installation of an SCR system on Ghent Unit 2, mercury emissions monitoring, precipitator upgrades, Air Quality Control System equipment necessary to operate Trimble County Unit 2 within the approved environmental limitations and sulfur trioxide mitigation on electric generating units which burn high sulfur coal. The total capital cost of these new pollution control facilities is estimated to be \$325 million.

The estimated impact on a residential customer using 1,000 kilowatt hours per month is expected to be an initial monthly increase of \$0.82 for KU customers during 2007, with the maximum monthly increase expected to be \$2.67 during 2010.

The Environmental Surcharge Application described in this Notice is proposed by KU. However, the Public Service Commission may make an order modifying or denying KU's Environmental Surcharge Application. Such action may result in an environmental surcharge for consumers other than the environmental surcharge described in this Notice.

Any corporation, association, body politic or person may, by motion within thirty (30) days after publication, request leave to intervene in Case No. 2006-00206. That motion shall be submitted to the Public Service Commission, 211 Sower Blvd., P.O. Box 615, Frankfort, Kentucky, 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application and testimony by contacting Kentucky Utilities Company at 220 West Main Street, Louisville, Kentucky, 40202, Attention: Kent W. Blake, Director, State Regulation and Rates. A copy of the Application and testimony will be available for public inspection at KU's offices where bills are paid after June 23, 2006.

NOTARIZED PROOF OF PUBLICATION

STATE OF KENTUCKY

COUNTY OF Franklin

Before me, a Notary Public, in and for said County and State, this 12th day of July, 2006, came RACHEL McCARTY personally known to me, who being duly sworn, states as follows:

NOTICE TO CUSTOMERS OF
KENTUCKY UTILITIES COMPANY

RECOVERY BY ENVIRONMENTAL SURCHARGE OF KU'S 2006
ENVIRONMENTAL COMPLIANCE PLAN

PLEASE TAKE NOTICE that on June 23, 2006, Kentucky Utilities Company ("KU") filed with the Kentucky Public Service Commission ("Commission") in Case No. 2006-00206, an Application pursuant to Kentucky Revised Statute 278.183 for approval of an amended compliance plan ("KU's 2006 Environmental Compliance Plan") for the purpose of recovering the capital costs and operation and maintenance costs associated with new pollution control facilities through an environmental surcharge on customers' bills beginning February 2007, under KU's existing rate mechanism known as the environmental cost recovery surcharge or "Electric Rate Schedule ECR."

Federal, state and local environmental regulations require KU to continually build and upgrade equipment and/or facilities in order to operate in an environmentally sound manner. Specifically, KU is seeking Commission approval of a Certificate of Public Convenience and Necessity ("CCN") to construct a new Selective Catalytic Reduction System ("SCR") for Ghent Unit 2 at the Ghent Generating Station in Ghent, Kentucky to comply with federally mandated Nitrogen Oxides requirements. Additionally, KU is seeking recovery of costs associated with environmental projects necessary for compliance with the Federal Clean Air Act, Clean Air Interstate Rule, Clean Air Mercury Rule, and the Clean Air Visibility Rule. These additional projects primarily relate to installation of an SCR system on Ghent Unit 2, mercury emissions monitoring, precipitator upgrades, Air Quality Control System equipment necessary to operate Trimble County Unit 2 within the approved environmental limitations and sulfur trioxide mitigation on electric generating units which burn high sulfur coal. The total capital cost of these new pollution control facilities is estimated to be \$325 million.

The estimated impact on a residential customer using 1,000 kilowatt hours per month is expected to be an initial monthly increase of \$0.82 for KU customers during 2007, with the maximum monthly increase expected to be \$2.67 during 2010.

The Environmental Surcharge Application described in this Notice is proposed by KU. However, the Public Service Commission may make an order modifying or denying KU's Environmental Surcharge Application. Such action may result in an environmental surcharge for consumers other than the environmental surcharge described in this Notice.

Any corporation, association, body politic or person may, by motion within thirty (30) days after publication, request leave to intervene in Case No. 2006-00206. That motion shall be submitted to the Public Service Commission, 211 Sower Blvd., P.O. Box 615, Frankfort, Kentucky, 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application and testimony by contacting Kentucky Utilities Company at 220 West Main Street, Louisville, Kentucky, 40202, Attention: Kent W. Blake, Director, State Regulation and Rates. A copy of the Application and testimony will be available for public inspection at KU's offices where bills are paid after June 23, 2006.

Exhibit C

Copy of the General Statement Included
In Customers' Bills During the Course
Of their Regular Monthly Billing Cycle
Beginning On or About June 19, 2006

Dear KU Customer:

Kentucky Utilities Company ("KU") has a dual commitment of environmental stewardship while simultaneously continuing to offer our customers some of the lowest energy rates in the country. Protecting and improving our environment are core values held by KU and advanced by KU in all its service territories within the state of Kentucky. To continue to comply with federal laws and regulations, KU must continue to invest in additional pollution control facilities. Currently, KU is seeking Kentucky Public Service Commission ("KPSC") approval to build additional pollution control facilities and install additional emissions monitoring equipment on several generating units. Following KPSC approval, the costs associated with the facilities would be passed on to retail customers through the existing Environmental Surcharge billing factor. KU estimates that the initial impact would be an increase in the environmental surcharge of \$0.82 per month for a typical residential customer using 1,000 kWh per month. The announcement below is included to comply with KPSC regulations regarding notice of tariff changes to customers. If approved as filed, this change in rates will be included on customer bills no sooner than February 2007.

NOTICE TO CUSTOMERS OF
KENTUCKY UTILITIES COMPANY

RECOVERY BY ENVIRONMENTAL SURCHARGE OF KU'S 2006
ENVIRONMENTAL COMPLIANCE PLAN

PLEASE TAKE NOTICE that on June 23, 2006, Kentucky Utilities Company ("KU") will file with the Kentucky Public Service Commission ("Commission") in Case No. 2006-00206, an Application pursuant to Kentucky Revised Statute 278.183 for approval of an amended compliance plan ("KU's 2006 Environmental Compliance Plan") for the purpose of recovering the capital costs and operation and maintenance costs associated with new pollution control facilities through an environmental surcharge on customers' bills beginning February 2007, under KU's existing rate mechanism known as the environmental cost recovery surcharge or "Electric Rate Schedule ECR."

Federal, state and local environmental regulations require KU to continually build and upgrade equipment and/or facilities in order to operate in an environmentally sound manner. Specifically, KU is seeking Commission approval of a Certificate of Public Convenience and Necessity ("CCN") to construct a new Selective Catalytic Reduction System ("SCR") for Ghent Unit 2 at the Ghent Generating Station in Ghent, Kentucky to comply with federally mandated Nitrogen Oxides requirements. Additionally, KU is seeking recovery of costs associated with environmental projects necessary for compliance with the Federal Clean Air Act, Clean Air Interstate Rule, Clean Air Mercury Rule, and the Clean Air Visibility Rule. These additional projects primarily relate to installation of an SCR system on Ghent Unit 2, mercury emissions monitoring, precipitator upgrades, Air Quality Control System equipment necessary to operate Trimble County Unit 2 within the approved environmental limitations and sulfur trioxide mitigation on electric generating units which burn high sulfur coal. The total capital cost of these new pollution control facilities is estimated to be \$325 million.

The estimated impact on a residential customer using 1,000 kilowatt hours per month is expected to be an initial monthly increase of \$0.82 for KU customers during 2007, with the maximum monthly increase expected to be \$2.67 during 2010.

The Environmental Surcharge Application described in this Notice is proposed by KU. However, the Public Service Commission may make an order modifying or denying KU's Environmental Surcharge Application. Such action may result in an environmental surcharge for consumers other than the environmental surcharge described in this Notice.

Any corporation, association, body politic or person may, by motion within thirty (30) days after publication, request leave to intervene in Case No. 2006-00206. That motion shall be submitted to the Public Service Commission, 211 Sower Blvd., P.O. Box 615, Frankfort, Kentucky, 40602, and shall set forth the grounds for the request including the status and interest of the party. Intervenors may obtain copies of the Application and testimony by contacting Kentucky Utilities Company at 220 West Main Street, Louisville, Kentucky, 40202, Attention: Kent W. Blake, Director, State Regulation and Rates. A copy of the Application and testimony will be available for public inspection at KU's offices where bills are paid after June 23, 2006.
