RE: The Application of Kentucky Utilities Company for a Certificate of Public Convenience and Necessity to Construct a Selective Catalytic Reduction System and Approval of its 2006 Compliance Plan for Recovery by Environmental Surcharge
Case No. 2006-00206

Dear Ms. O'Donnell:

Please be advised that the written Direct Testimony of John P. Malloy, Director-Generation Services, should be corrected as follows:

(1) Page 9, Line 14: The value of 143% should be 43% consistent with the same representation made at page 5, line 4 in his testimony for Kentucky Utilities Company ("KU").

Also, on page 6 of KU's Application, the word "modification" should be used in lieu of the word "installation" to describe the activity associated with Project No. 27 - the Electrostatic Precipitators at the Brown Plant. This change is consistent with the description on pages 22 and 23 of Mr. Malloy's testimony for KU.

Should you have any questions concerning these corrections, please contact me at your first convenience.

Very truly yours,

Kendrick R. Riggs
