PUBLIC SERVICE COMMISSION

Re: Cumberland Valley Electric Pass-Through of East Kentucky Power Cooperative, Inc. Wholesale Rate Adjustment- PSC Case No. 2006-00477

Dear Ms. O'Donnell:

Cumberland Valley Electric ("Cumberland Valley") hereby submits to the Public Service Commission (the "Commission"), its Proposed Tariffs and other information required by 807 KAR 5:007 in regard to the pass-through of any wholesale rate adjustment granted to East Kentucky Power Cooperative, Inc., ("EKPC") in PSC Case No. 2006-00472. This filing includes the following:

1. Cumberland Valley's Proposed Tariffs are attached as Exhibit I.

 The name and filing address of the filing cooperative is: Cumberland Valley Electric Highway 25E P.O. Box 440 Gray, KY 40734

3. In accordance with the provisions of KRS 278.455(2), Cumberland Valley hereby states that the effects of the increase in rates from its wholesale supplier, EKPC, is being passed through to its retail tariffs on a proportional basis and that the rate design structure proposed for each retail rate schedule does not change the rate design currently in effect.

4. A comparison of the current and proposed rates of Cumberland Valley is attached as Exhibit II.

5. Attached as Exhibit III is a billing analysis which shows the existing and proposed rates for each rate class. EKPC's proposed rate increase to Cumberland Valley was developed by allocating the proposed wholesale increase on a proportional basis to each major group of customer classes. The proposed increase for EKPC's "B" and "'C"

industrial classes, and its large load special contracts, was applied to the demand charge for those customers. The remainder of the proposed increase was applied to the energy charge for the "E' customer class. Cumberland Valley, in turn, followed the same process by first increasing the demand charges for its industrial "B" and "C' rates, as applicable, and then allocating the remaining dollar increase to all remaining classes and increasing the energy charges for those rate schedules. In each instance, the retail rates for a particular class have been developed in a manner that is consistent with the method proposed by EKPC. The proposed rate design structure at retail does not change the rate design currently in effect and is consistent with the rate design methodology used at wholesale.

6. A certification that a copy of this filing has have been filed with the Office of Rate Intervention, Office of the Attorney General, is attached as Exhibit IV.

7. Notice of the proposed rate change has been given, not more than thirty (30) days prior to January 29, 2007, by publication in a newspaper of general circulation in the affected area of Cumberland Valley. A copy of this notice is attached as Exhibit V.

Cumberland Valley hereby requests that the Commission accept this filing and allow the pass-through to its retail rates of the wholesale rate adjustment granted to EKPC as of the effective date of such adjustment.

Respectfully submitted,

CUMBERLAND VALLEY ELECTRIC
