PUBLIC SERVICE  
COMMISSION

Dear Elizabeth O'Donnell

I am opposed to EKP Running a new transmission line in Madison Co, I see no public convenience and necessity involved, this line will be going to Warren elec Co in Graham Ky, which already gets their elec from TVA. this line will be a double jeopardy to my farming operation in 1993 EKP Ran a line across my farm and I have never settled up on the cost and damages to my farm they gave me \$6,000 for the land use since their contract said they would repair the affected area, in a reasonable condition in a reasonable time, pay all damages to roads, gates, fence, crops, and be liable for any damages that is a lie they have never settled with me, they cut my fences left my cones out on the main road, to get them out, they took gates down and left them lay there tore fence up dug ditch in my fields cut trees down and pulled them in a creek I have spent \$8,000 to repair my farm from their damages, I have hired 2 lawyers both of them have been bought off by EKP.

~~then~~ three years ago they said they would settle if my brother would let them run a power line across his farm so we all agreed. after the line went through they back out. E.K.P. said that they would do what ever it takes to ruin their line and there was nothing I could do.

then wrong they will not come on my property again until this is settle my contribution right have been wronged if the (PSC) grant; this certificate 2006-00463 there are as liable as E.K.P.
