RE: Administrative Case No. 2006-00494

On March 11, 2009, Kenergy submitted its annual reliability report without a statement about the effectiveness of our vegetation management efforts. Please accept the following statement as an addendum to the 2008 report.

*Kenergy's Vegetation Management efforts are continually evaluated to ensure adequacy and effectiveness. During 2008, approximately 915 miles of line were cleared which is consistent with the cycle length outlined in Kenergy's Vegetation Management Plan. The 2009 scope of work has been developed and is also consistent with Kenergy's cycle length. At this point, Kenergy does not anticipate any significant modifications to the vegetation management program in 2009.*

If you have any questions, please feel free to call.

Sincerely,

Gerald R. Ford, P.E.  
Vice President of Operations
