RE: Case No 2006-00499
Salyersville Water Works

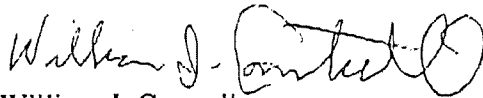

Dear Mr. Kirtley:

Salyersville Water Works is increasing the water cost to Magoffin County Water District by \$.15 per one thousand gallon of water. I talked with you and Mr. Beaver about this.

Mr. Beaver said they would send me all the information and rates that I needed to put in the local newspaper to be effective for January readings to be paid in February. We start reading January 10th and bills must be paid by February 10th.

I need the information to put in the local newspaper the 1st week of January.

Sincerely,

William J. Cantrell
Manager
