34. In its most recent 2-year case, the roll-in of fuel costs into East Kentucky's base rates was approved using a "flash cut" approach, which resulted in an immediate change from its then-existing base fuel cost to its new base fuel cost, rather than a "transitional approach" in which the first month's fuel cost is an average of the old and

new base fuel cost. East Kentucky also indicated its preference that any change in base rates be approved on a “service rendered” basis rather than a “bills rendered” basis. If the current FAC review results in changes in its base rates, does East Kentucky continue to prefer the same “flash cut” approach on a “service rendered” basis as authorized in the previous 2-year case? Explain.
