RE: 2007-00134
Kentucky American Water Co.

December 17, 2007

I plead with the Public Service Commission to deny the Kentucky American Water plan for the following reasons:

K.A.W.'s motive is to fleece the rate payers, landowners and tax payers for their profit only.

K.A.W., a privately owned company, plans to transport treated water through an underground transmission line through Franklin and Scott Counties to existing water mains in Fayette County for the sole purpose of connecting to a grid. (A private owned company)
Hugh profits for Kentucky American Water Company at taxpayers, ratepayers and landowners expense.

Scott and Franklin Counties have nothing to gain, they're just being fleeced.

I'm trusting you to deny the K.A.W. pipeline in making a fair and right decision.

Respectfully,
