RE: PSC Case # 2007-00134

Dear Ms. O'Donnell:

As mayor of the City of Midway, I whole-heartedly support the water supply solution submitted to the PSC in March of this year. Midway's water is provided by Kentucky American Water, so this project will directly impact our residents, businesses, visitors and students in a positive way.

The beauty and historic features of Midway give it a special tourist appeal. Water is an integral part of creating and maintaining this environment. It is also crucially important to our educational institutions, which include Midway College.

Kentucky American Water has provided excellent service to our community and the quality of our water is outstanding. We trust the company to develop and deliver the right solution to the challenging water supply deficit. The threat of this summer's drought made us realize that the solution needs to be put in place without delay or it will impact our quality of life on many levels.

For these reasons, I encourage the Commissioners to grant approval for construction of the Kentucky American Water project.

Very truly yours,

Tom Bozarth
Mayor
