PUBLIC SERVICE  
COMMISSION

*September 8, 2007*

Dear Public Service Commission:

#2007-00134

Kentucky American Water doesn't care about ratepayers, the environment, or the citizens of Kentucky. Kentucky American Water exists to serve its for-profit needs and those of its parent company, RWE, a multinational corporation.

Do not allow Kentucky American Water to obtain a monopoly on the water of central Kentucky. Please look at the big picture and protect us from such a hostile takeover.

We'd love to get water any other way.

Sincerely,

*Edward B. Gustine  
1622 Moores Mill  
Midway, Kentucky 40347*
