*Stephen Gano*

1134,

at Kentucky American Water's proposed  
the Kentucky River to Newtown Pike in Fayette  
solution to the water needs of Central Kentucky.  
I believe that a private for-profit company should  
prevent the destruction of my property or my neighbor's

Central Kentucky deserve a long-term solution to  
the creation of a larger water body, such as the Ohio  
River utility corridors makes the most sense  
economically, and aesthetically.

*White Sulphur School built in 1920 as  
rural school in Scott County,  
which a large pipeline in our front  
yard  
to schools  
construction  
the old Pen  
Hinges Free*
