

107-00134,

I believe that Kentucky American Water's proposed  
3 on the Kentucky River to Newtown Pike in Fayette  
cost solution to the water needs of Central Kentucky.  
I do not believe that a private for-profit company should  
be responsible for the destruction of my property or my neighbor's

RECEIVED

COMMUNITY DEVELOPMENT

Residents of Central Kentucky deserve a long-term solution to  
the problem of water. Utilization of a larger water body, such as the Ohio  
River, through existing utility corridors makes the most sense  
environmentally, and aesthetically.

Comments: The Ohio River will provide a  
reliable water supply. The drought  
brought me more than ever to this  
conclusion.
