Public Service Commission  
211 Sower Boulevard  
P.O. Box 615  
Frankfort, Kentucky 40602

RECEIVED

OCT 23 2007

PUBLIC SERVICE  
COMMISSION

Dear Ms. O'Donnell:

The Board of Directors of the Jessamine County Chamber of Commerce has voted to support the Application of Kentucky-American Water Company to the Public Service Commission seeking approval to build a water treatment plant near Pool 3 on the Kentucky River in Owen County, Kentucky.

This solution is a timely, cost effective approach to meeting Central Kentucky's serious water supply problem and our businesses and residents will benefit. Not only is Jessamine South Elkhorn Water District a wholesale customer of Kentucky American Water, but the City of Nicholasville Public Utilities will be able to purchase much-needed water from the Bluegrass Water Supply Commission (BWSC) once this project is up and running and a planned joint equity agreement is completed.

We believe this proposed treatment plant and transmission line will solve Central Kentucky's water problems, will create employment in Jessamine County, will increase the tax revenue for Jessamine County and Nicholasville and will make further economic development in Jessamine County more probable.

The Jessamine County Chamber of Commerce Board of Directors wholeheartedly supports the Application of Kentucky-American Water Company and encourages the Public Service Commission to grant its approval.

Very truly yours,

JESSAMINE COUNTY CHAMBER OF COMMERCE  
BOARD OF DIRECTORS
