Kentucky American  
Case 2007-00134

RECEIVED

DEC 18 2007

PUBLIC SERVICE  
COMMISSION

As a resident of Scott County I have some serious concerns about the proposed Kentucky American Water Company proposal now before your commission.

Central Kentucky needs a solution to its future water needs that is cost-effective for ratepayers and provides drought protection. Kentucky American Water has failed to meet these criteria with its proposed water treatment plant near Monterey and a pipeline to Lexington. Kentucky American's plan is poor public policy and a costly mistake, financially and ecologically.

Going cross country can easily be avoided. Louisville Water is willing, I understand to partner with Kentucky American and the Bluegrass Water Supply Commission .

Please consider this option when making your decision.

Respectfully yours,

*Elton & Keith Mance*
