

Case 2007-00134,

I believe that Kentucky American Water's proposed Pool 3 on the Kentucky River to Newtown Pike in Fayette is the least cost solution to the water needs of Central Kentucky. I do not believe that a private for-profit company should profit financially from the destruction of my property or my neighbor's

properties. Citizens of Central Kentucky deserve a long-term solution to their water needs. Utilization of a larger water body, such as the Ohio River, through long existing utility corridors makes the most sense environmentally, and aesthetically.

Comments: The KAW pipeline proposal
is cost driven and has no thought
for the future. We must consider what's best for KY!
