

07-00134,

I believe that Kentucky American Water's proposed
3 on the Kentucky River to Newtown Pike in Fayette
is the most cost solution to the water needs of Central Kentucky.
I do not believe that a private for-profit company should
be responsible for the destruction of my property or my neighbor's

Central Kentucky deserve a long-term solution to
the water problem. Utilization of a larger water body, such as the Ohio
River, through existing utility corridors makes the most sense
economically, environmentally, and aesthetically.

Respectfully,

~~Michael~~ Michael Folmer
