Mr. Goss,

To put it bluntly, accessing water from the 3 to 4 pool of the Ky River without fixing or upgrading the dams, frankly, seems stupid. I realize the dam projects are an enormous cost but society needs to look for long term fixes. Wouldn't it be great, say 10 to 20 years from now, to look back at an upgrading waterway system with larger locks and dams on the Kentucky so that commerce has another avenue to central KY, let alone recreational interests.

Mark Stinnett.
