Dear Public Service Commission:

Thank you for addressing the water supply issue in Central Kentucky, as per Case 2007-00134 in Scott County. We have a long history of supporting a proposed reservoir project in our county, which we are awaiting approval and permits from the Army Corp of Engineer, to begin the project.

The study of the proposed pipeline from Kentucky American or Louisville Water (it is of public record that Louisville Water is my preference) will be going through Scott County. I only ask that you truly study and base your decision on what will have the least environmental impact on the citizens of each county involved and of course the citizens of my county, Scott County.

Thank you for your time and consideration.

Sincerely,

Honorable Charles Tackett
Magistrate District 3
