Subject: Water Company Plan
Auto forwarded by a Rule

Hello Whoever:
I support the Water Company's plan to add additional water purification from the Kentucky River. Any more debate on this issue is a total waste of time. When I moved here ten years ago, the Water Company wanted to run a pipeline from Louisville and the know-it-all-no-nothings demurred and delayed things for all this time. Now they have reappeared agruing for that which they were against. Enough is enough. Let's get on with expanding our water supply before we find ourselves in a deep drought without water, like what almost happened this year.
