Hello,

My name is Charity Watterson. I live in Corbin, KY and I will be directly affected by Delta Gas and it's need to make more profit. I am a good paying customer who is never late and I already pay about \$300-\$400 a month in the winter to heat my house. The thought of paying more than that so that Delta's profit margin can increase is unbearable to me. I would have gone to all electric heat in the past but I cannot afford to install an all new system. I also can't afford to pay Delta Gas any more than I already do. Please do not approve of their request to increase residential rates. We are over-paying as it is.

Thank you,
