**RE: Application Of Louisville Gas and Electric Company For An Order
Approving A Responsive Pricing And Smart Metering Pilot Program**
Case No. 2007-00117

Dear Ms. Stumbo:

Enclosed please find an original and ten (10) copies of Louisville Gas and Electric Company's Motion to Amend Commission's Order of July 12, 2007 in the above-referenced docket.

Should you have any questions concerning the enclosed, please do not hesitate to contact me.

Sincerely,

Lonnie E. Bellar

cc: Parties of Record

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF LOUISVILLE GAS AND)
ELECTRIC COMPANY FOR AN ORDER)
APPROVING A RESPONSIVE PRICING) CASE NO. 2007-00117
AND SMART METERING PILOT)
PROGRAM)

MOTION OF LOUISVILLE GAS AND ELECTRIC COMPANY
TO AMEND COMMISSION'S ORDER OF JULY 12, 2007

Louisville Gas and Electric Company ("LG&E") hereby petitions the Kentucky Public Service Commission ("Commission") to issue an order approving minor revisions to its responsive pricing and smart metering pilot program ("Pilot") and corresponding tariff changes to Electric Rate Schedules RRP and GRP. LG&E respectfully requests the Commission to issue an order approving these minor changes by September 26, 2008. In support of this Motion, LG&E states as follows:

1. On July 12, 2007, the Commission issued an Order in this proceeding approving the Pilot as originally proposed by LG&E. At that time, the Commission approved LG&E's proposal that up to 100 customers under Rate RS and up to 50 customers under Rate GS may qualify for the program. Currently, approximately 100 residential customers are receiving electric service pursuant to Electric Rate Schedule RRP. Only a handful of small commercial customers have requested, and are receiving, service under Electric Rate Schedule GRP.

2. General Electric Company (“GE”), located in Louisville, Kentucky, has contacted LG&E about partnering in an effort to promote and test Demand Side Management (DSM)-ready household appliances. In connection with this partnership, GE plans to install GE DSM-ready appliances in the homes of approximately 15 GE employees located within the pre-selected metering routes identified for the Pilot. LG&E, on its part, would agree to allow these GE employees to be served under Electric Rate Schedule RRP, if requested.

3. In an effort to further the development of energy efficiency innovations for our customers and the nation as a whole, LG&E requests a limited variance to include a small group of GE employees who qualify and elect to participate in the Pilot. Specifically, LG&E requests that a variance be granted to the RRP tariff to allow approximately 15 additional customers (all GE employees) to be served under Rate RRP in order to facilitate the response testing of GE DSM-ready appliances.

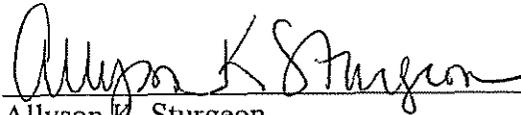

4. This minor variance will respond to ever-increasing interest in such energy efficiency programs and to obtain an even more useful sample from the Rate RS customer population.

5. Because the proposed revisions contained herein will not result in any change in rates, LG&E respectfully requests that the Commission approve this request as quickly as possible in order to allow these additional customers (who are GE employees) to begin immediate participation in the Pilot.

WHEREFORE, Louisville Gas and Electric Company requests that the Commission approve the minor revisions as described herein and as set out in the attached tariff sheets by September 26, 2008.

Dated: September 12, 2008

Respectfully submitted,

Allyson K. Sturgeon
