Subject: Central Kentucky Water Supply
Auto forwarded by a Rule

I consider development of increased water supplies for Lexington and adjoining areas of Central Kentucky to be urgent. My preference among the plans being considered at this point is construction of a treatment plant on the Kentucky River and construction of a pipeline to connect it to the present Kentucky American distribution system. I believe this has been called The Central Kentucky Solution. I consider making a prompt choice and beginning implementation to be critical. George Mitchell, Lexington.
