

Case # 2007-00134

RECEIVED

APR 25 2008

PUBLIC SERVICE  
COMMISSION

Public Service Commission

I heard of your decision approving KAW's plan and drove right over. It's 11:00 am on Friday morning, one hour after your announcement.

I can't believe you so egregiously flouted the public will on this matter + ruled in favor of that corporate giant (when other options were available).

I and other members of the public (hundreds of us) feel devalued + humiliated and I, for one, have lost some bit of faith in the democratic process.

I can only hope (but now have no basis for believing) that those with power + money didn't have more influence over you than residents endowed with no more than a desire for sound policy + a burning love of our place.
