COMMENTS: The proposed pipeline through Franklin Co does not appear to be in anyone's best interest, with the exception of Ky American. If Louisville can supply the needed water service to Central Ky, why permit Ky American to disrupt the lives and property of so many people, all for the sake of profit. The citizens of this area depend on officials of this States' government to protect their rights and wellfare. At a time when confidence in government is at an all time low, please consider the needs of so many people.

Thank you
