Address: 6000 Georgetown Road Frankfort, KY

Case: Ky American Water - Pool 3

COMMENTS: I want to say KAW is a foreign
owned company for profit. They recently asked
for a price hike in Lex. KAW will be like the
price of Gas if you let them run their water
line from Owenton to Lex. The only way they can
pay for that line is to up the price of water.
The pool 3 on the river the last few months
wasn't even running over the dam so if there
is another drought - They would be out of
water anyway. It sounds like KAW would
own pool 3 does that mean no irrigation
& they might not let any water flow on down
river!

The Louisville water plan is a lot cheaper
& it comes down the interstate. which would
be a lot better than tearing up the land
between Owenton & Lex. At least Louisville
water is not for profit & not Foreign Owned

The History Channel had a water program on about
2 weeks ago every body needs to see - It told
about future water wars.

Like fighting countries over oil - everyone will be
fighting over water.

* Please vote for Louisville Water *
