Name: Vanessa G. Phillips
Address: 101 Locust Grove Drive, Georgetown, KY 40329

Case: 2007-00134

COMMENTS: I live in a residential area and
oppose the Kentucky American water pipeline
proposal to run a water pipeline through my
property. I currently have water through
G m wss and am very satisfied with the
quality of my water service. I do not think it is
necessary for Kentucky American to run a
water pipeline through a residential area that is
already supplied with local water. Construction
in my area would be inconvenient, loud,
and ~~not to mention~~ would create a mess on
and near my property. I live next to a
main road (Iron Works Pike) and my property
would be directly affected by the construction
and installation of a water pipeline. For these
reasons I strongly oppose the Kentucky
American proposal to run a water pipeline
through my property.
