Subject: My Opposition to the proposed Kentucky-American Water Pipeline  
Auto forwarded by a Rule

PSC Commissioners,

Please allow me this opportunity to voice my strong opposition to the proposed  
Kentucky-American Water Company Pool 3 pipeline project. I oppose this project for  
numerous reasons:

1. This pipeline will cause significant environmental destruction throughout  
central Kentucky and the Peaks Mill area.
2. The pipeline will negatively affect properties owned in that area,  
creating  
destruction on privately-owned rural land, destroying forest ecology and  
private  
lands.
3. The pipelin will create Kentucky-American controlled easements across  
properties that are privately owned, taking away control from landowners and  
giving  
it to this corporation.
4. It is a bad idea to have a for-profit company in control of all the  
water in  
central Kentucky.
5. It would appear the pipeline project is more for the purpose of boosting  
Kentucky-American's stock worth.

6. The cost of this project exceeds the cost of other options.

Please take whatever action is necessary to prevent this poorly-planned and destructive water pipeline from being implemented. Thank you very much for your time and consideration regarding this very important issue.

I can be reached at this e-mail address: E-MAIL ADDRESS REDACTED

Sincerely,

Adam Saaïd  
Property Owner in Peaks Mill area
