Address: 6850 GEORGETOWN RD MIDWAY (FRANKLIN COUNTY)

Case: 2007-00134

COMMENTS:

New water routes should be built
where there is the least environmental
impact i.e. Interstates where the landscape
already has been disturbed previously.

We live on a small rural lot adjoining
the proposed route. The line would
disrupt over 50% of our property.
Thanks but no Thanks.

Your careful considerations are
appreciated
