

4. Citipower's notice sets out a current quarter actual adjustment ("AA") of (34.26) cents per Mcf. Citipower's total AA is (\$2.3794) per Mcf, which is an increase of 5.74 cents per Mcf from the previous total AA.

5. Citipower's notice sets out a current quarter balance adjustment ("BA") of (.13) cent per Mcf. Citipower based its calculation on an incorrect prior current quarter AA. Reviewing Citipower's prior filings shows that the next AA that expired and should be incorporated into the BA is from Case No. 2006-00044,² which was effective March 1, 2006. Correcting for this produces a current quarter AA of (4.75) cents per Mcf. Citipower also did not correctly carry forward its previous quarter AA in calculating its total AA. Correcting for this results in a total BA of (2.31) cents per Mcf, which is a decrease of 4.10 cents per Mcf from the previous total BA.

6. These combined adjustments produce a GCA of \$8.0375, which is \$1.2864 per Mcf more than the previous rate of \$6.7511.

7. The revised rates in the Appendix to this Order are fair, just and reasonable, and should be approved for billing for service rendered on and after June 1, 2007.

IT IS THEREFORE ORDERED that:

1. Citipower's proposed rates are denied.
2. The rates in the Appendix to this Order are fair, just, and reasonable, and are approved for billing for service rendered on and after June 1, 2007.
