RE: Case No. 2007-00307

Dear Executive Director:

The reason for my letter today is to express my strong support for the above referenced application. In today's fast paced, electronic world cellular telecommunication service has become a valuable tool. The proposed tower would increase the availability to access this much needed services and would be a welcome addition to our community.

As our county slogan states, Estill County is where "The Bluegrass Kisses the Mountains". While our mountainous range is aesthetically pleasing, it can have an adverse effect on cellular service. The proposed tower will increase to services to our citizens and the people which travel through our community.

While I realize that many worthy applications will cross your desk, I feel this one warrants your consideration. Please do not hesitate to contact my office if you require any further information regarding this matter.

Respectfully,

Wallace Taylor  
County Judge/Executive
