**Attorney General Supplemental Data Requests
Duke Energy Kentucky Case No. 2007-00369
Date Received: February 29, 2008
Response Due Date: March 11, 2008**

AG-SUPP-01-001

REQUEST:

Please reference the Motion to Amend, Paragraph 3. Please explain in detail why the Company believes that its existing WinterCare and Payment Plus programs are inadequate to address the needs of its low-income customers.

RESPONSE:

We are responding to a request by the Northern Kentucky Community Action Commission (NKCAC). The agency said that there was a significant shortfall in funding for low-income energy bill payment assistance in Kentucky. Funds were expected to be depleted by end of January 2008. In addition, the Payment Plus program (which starts just prior to the heating season) will not start up again until the Fall of 2008.

PERSON RESPONSIBLE: Pam Chapman, Kathy Schroder

**Attorney General Supplemental Data Requests
Duke Energy Kentucky Case No. 2007-00369
Date Received: February 29, 2008
Response Due Date: March 11, 2008**

AG-SUPP-01-002

REQUEST:

Please reference the Motion to Amend, Paragraph 4. Please explain in detail why the company has proposed the 200% income level for participation in the proposed program.

RESPONSE:

The program would initially target customers at the 150% to 200% federal poverty guideline level, as these low-income customers are not eligible for assistance under existing financial aid programs. Duke Energy Kentucky is concerned that, with high energy costs, low-income customers may need additional assistance to be able to pay their energy bills during the next few years.

PERSON RESPONSIBLE: Kathy Schroder

**Attorney General Supplemental Data Requests
Duke Energy Kentucky Case No. 2007-00369
Date Received: February 29, 2008
Response Due Date: March 11, 2008**

AG-SUPP-01-003

REQUEST:

Please reference the Motion to Amend, Paragraph 6. Please provide an estimate of the income levels of participants in the proposed program.

RESPONSE:

As provided by the Department of Health and Family Services:

150% Annual income for family of 1 is \$15,315

200% Annual income for family of 1 is \$20,420

150% Annual income for family of 4 is \$30,975

200% Annual income for family of 4 is \$41,300

This additional funding would provide assistance to families who are still well within the poverty guidelines.

PERSON RESPONSIBLE: Pam Ball

PUBLIC SERVICE
COMMISSION

In the Matter of:

THE ANNUAL COST RECOVERY)
FILING FOR DEMAND SIDE) Case No. 2005-00402
MANAGEMENT BY THE UNION)
LIGHT, HEAT AND POWER COMPANY)

AMENDED APPLICATION OF
THE UNION LIGHT, HEAT AND POWER COMPANY
FOR APPROVAL OF A PILOT
HOME EMERGENCY ASSISTANCE PROGRAM

Pursuant to KRS 278.285, The Union Light, Heat and Power Company ("ULH&P") hereby amends its Application for approval of its 2006 Demand Side Management ("DSM") programs to add a request for approval of a new Pilot Home Emergency Assistance Program to be administered under the umbrella of ULH&P's current WinterCare program. As background, ULH&P states that on September 30, 2005, it filed its annual report and request for continuation of certain DSM programs, and true-up to its DSM riders. This application is still pending.

Since ULH&P filed its application, energy prices have risen sharply, due to fuel shortages and supply disruptions. ULH&P has several bill management programs to help customers deal with their energy costs. Additionally, ULH&P this winter has significantly increased its efforts to educate customers about conservation measures, bill management programs and financial assistance programs. This media effort includes radio and newspaper advertisements, direct mail, billboards, bill inserts/messages, a new website

(CinergyComfort.com), and a dedicated telephone help line (1-888-BEWARM2). The total cost of this new advertising for the Tri-State area for 2005 is over \$650,000.

For the past several years, ULH&P has operated a voluntary financial assistance program known as WinterCare. The WinterCare program provides financial assistance to low income ULH&P customers to help pay their gas and/or electric bill. Eligibility is based upon need and does not necessarily follow government assistance guidelines. Eligible customers can receive up to \$300.00 in assistance for their utility bill. WinterCare is completely funded by ULH&P employees, customers, and shareholders. For this winter season, ULH&P will match \$1.00 for every \$1.00 donated, up to \$25,000. Previously, ULH&P matched \$1.00 for every \$2.00 donated.

ULH&P is concerned that, with the rising energy costs, low income customers may need additional assistance to be able to pay their energy bills this winter. In addition to the programs described in its original application, ULH&P proposes a new DSM energy assistance program under the umbrella of the WinterCare program. ULH&P has consulted with the Residential DSM Collaborative to seek its support for this program.

This program would be eligible to customers who meet an income qualification level which is up to 200% of the federal poverty level. ULH&P estimates that approximately 14,400 customers could be eligible for this program (based on the number of single family owner-occupied households within ULH&P's service area that have qualifying income levels). Program participants must be current ULH&P customers.

ULH&P proposes to charge residential electric customers \$0.000265 per kWh and residential gas customers \$0.05 per Mcf for the twelve-month period following Commission approval. Based on normal winter usage, this is expected to generate approximately

\$385,000 in revenues for each service for a total of approximately \$770,000. The total annual bill cost impacts to customers are expected to be approximately \$4.00 for gas customers and approximately \$3.00 for electric customers. The worksheet at Attachment A shows the estimated bill impacts based on normal customer usage and the estimated revenues.

ULH&P would notify customers of these charges through a bill message to be included on customers' bills during the 12-month period these charges would be in effect. The funds generated would not be administered under the purely discretionary basis as are the current WinterCare funds, but rather would be used to provide bill credits for eligible customers, and would initially target customers at the 150-200% federal poverty guideline level, *as these low income customers are not eligible for assistance under existing financial aid programs.* The funds ULH&P raises through the current voluntary component of the WinterCare program will continue to be administered by Northern Kentucky Community Action Commission ("CAC") on a discretionary basis, to allow CAC the flexibility to address the particular hardship situations they may encounter. In addition, ULH&P is contributing \$25,000 in new funding for this winter season's WinterCare program, also to be administered by CAC on this discretionary basis. This could result in up to \$75,000 in voluntary WinterCare funding, if customers donate at the maximum matching level.

The new program would also be administered by the CAC, which also administers ULH&P's current Home Energy Assistance Plan known as "Payment Plus." The CAC would income qualify the participants and provide the relevant information to ULH&P. ULH&P would apply the bill credits to eligible customer bills and notify the customers of the credits through a bill message. A formula will be used for calculating the bill credit. The

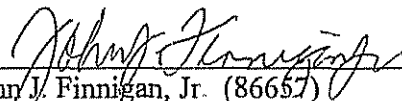

formula may be based on factors such as the size of the participants' household and income, the amount of the household's utility bills, the amount of arrearages, the number of heating degree days versus normal heating degree days for the billing period under consideration, and any significant changes in costs of utility service. CAC's additional cost for administering this program would be included as part of the DSM program administration costs.

The Collaborative's review is pending, and ULH&P will notify the Commission of the outcome as soon as the Collaborative reaches its decision. If approved, ULH&P will report on the results of this program as part of its next annual DSM report in September 2006. At that time, ULH&P will include a request to continue, modify, or terminate this program based on results from the pilot program and market conditions existing at that time. Attachment B-1 consists of the proposed Rider DSMR tariff sheets for gas and electric services based on the currently applicable DSM rates but with the residential portion of the riders modified to include the Heat Fund incremental rates of \$0.05 per Mcf for gas service and \$0.000265 for electric service. Attachment B-2 contains the DSMR gas and electric riders which ULH&P filed September 30, 2005 which have now been modified to likewise include the incremental Heat Fund charges shown above.

ULH&P submits that the above circumstances constitute good cause and therefore requests the Commission to approve this application after 20 days notice, as provided in KRS 278.180(1). Additionally, ULH&P requests that the Commission issue an interim order approving this DSM program after 20 days notice, so that ULH&P can implement this program while the Commission completes its review of the remainder of ULH&P's pending DSM application.

Respectfully submitted,

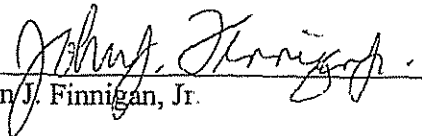

THE UNION LIGHT,
HEAT AND POWER COMPANY

Response Due Date: March 11, 2008**

AG-SUPP-01-006

REQUEST:

Please reference the Motion to Amend, Paragraph 8. Please explain in detail why the Company believes this program needs to be implemented as quickly as requested given that we are nearing the end of the heating season.

RESPONSE:

The Northern Kentucky Community Action Commission (KYCAC) distributes funds to qualified low-income clients on a year-round basis. Also, at the Kentucky Residential Collaborative meeting on February 20, 2008 the NKCAC reported that all available funds had been applied to assist low-income customers.

PERSON RESPONSIBLE: Pam Ball

**Attorney General Supplemental Data Requests
Duke Energy Kentucky Case No. 2007-00369
Date Received: February 29, 2008
Response Due Date: March 11, 2008**

AG-SUPP-01-007

REQUEST:

Please reference the Motion to Amend, Paragraph 8. Please explain in detail whether there is any overlap between participants under this program with participants in any other of the Company's low-income program.

RESPONSE:

Yes, there could be overlap of programs due to demand for services, emergency family situations and continued need to address high energy costs. WinterCare targets clients at or below 150% of the poverty level. The HEA program targets customers at the 150% to 200% federal poverty guideline level to help fill in the gap of need when WinterCare funds are not available. Additionally, Payment Plus and weatherization participants qualify at 150% of the poverty level and may receive services.

PERSON RESPONSIBLE: Kathy Schroder
