PUBLIC SERVICE
COMMISSIONSept 26th 2007

To whom it may concern:

This is in regards to Case no. 2007-00398. The public notice says that Appalachian Wireless is building a tower on a ridge between Oaklog Creek and Right fork of Greasy Creek, three miles northwest of Van Lear in Johnson County.

My sisters and I own one hundred and 1/2 acres at approximately this location. It's the Eugene and Garnet Ward estate.

We have had so many problems with people trying to steal this land, therefore if you could let me know who owns the property the tower is to be located on. I would appreciate it.

Sincerely

Deborah Ward Delphrey
