RE: Case No. 2007-00431

Dear Madam:

Attached you will find an Application for a Certificate of Convenience and Necessity to remodel and build an addition to our headquarters building. Construction plans are also attached.

Sincerely,

Don M. Combs  
Mgr. Finance & Accounting

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF GRAYSON RURAL ELECTRIC )  
COOPERATIVE CORPORATION FOR A CERTIFICATE )  
OF CONVENIENCE AND NECESSITY AUTHORIZING ) CASE NO.  
THE CONSTRUCTION NECESSARY TO EXPAND ) 2007-00431  
AND REMODEL THEIR HEADQUARTERS BUILDING )  
AT GRAYSON, KENTUCKY )

Grayson Rural Electric Cooperative Corporation is requesting a Certificate of Convenience and Necessity to remodel and expand its Headquarters Building located at 109 Bagby Park, Grayson, Kentucky, 41143.

The purpose and intent of this project is to provide additional security to its employees, add convenience for its members, add some extra square footage to accommodate existing and future activities, and upgrade the infrastructure of a seventy year old building of historical significance.

Phase I will require construction to provide security to employees handling cash and checks while controlling the general public's access to other parts of the building. It will also include the installation of a drive-up kiosk that allows members to pay bills without leaving their automobile. Phase I will also entail preparing for the moving of the Customer Service Representatives area to an existing space. We are requesting to begin construction this fall.

Phase II will consist of removing the rear wall of the existing building (originally a 10' x 77' enclosed porch on both floors and replacing that with a 20' x 77' space on both floors. This will add approximately 770 sq. ft. on 3 floors (including a basement). We are requesting authority to begin this phase in the Spring of 2008.

Architectural Planning & Design, Inc. of Huntington, West Virginia is the firm engaged to design and plan the construction of this project.

Grayson Rural Electric is planning to use general funds to finance this project.
