Case No. 2007-00501

Dear Sir:

In response to your letter informing us of the hearing on Aug. 27, 2008 at 9:00.

I still oppose having the tower at Walnut Hill 269, Liberty Ky. 42539. This close to our home. I do not think that it is safe for my families health and I don't want it that close to my property, you wouldn't want to look out your front door at a tower every day.

In regard to and suitable and acceptable alternative location. The Weddles have a lot of land that you could put the tower on. There's a lot right in front of R. C. Weddle house, right beside of 127 highway. And there's land behind Chris Weddles house. And they have got other property, it could be put on, instead of right in front of my house.

Our property wouldn't be worth anything if you put the tower there. It would make the value go way down on our property. Nobody would buy it and have to look at a tower all the time.

I was born on this property and live here all my life. My home means a lot to me.

In your letter you said you are not authorized to consider the environmental effects of radio frequency emissions (including health issues). To me that sounds like the tower being close to people is not healthy.
