Dear Sir:

In response to your letter informing me of the hearing on Aug 27, 2008 at 9:00.

I still oppose having the tower at 269 Walnut Hill, Liberty, Ky. 42539. I think it is too close to my home. I don't think it is good for my families health. And it will make the value of my property lower.

In regard to a suitable and acceptable alternative location the Weddles have plenty other land that you can put the tower on.

In your letter you said you are not authorized to consider the environmental effects of radio frequency emissions (including health issues) to me that sounds like the tower being close to people is not healthy.
