RE: Grayson County Water District  
Proposed Rate Increase-Case # 2008-0057

Dear Ms. Stumbo

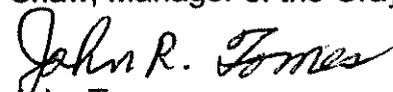

After carefully reviewing the Commissions staff report dated August 6, 2008 and bringing it before the Grayson County Water Districts full board for discussion on August 18, 2008, it has been determined that the findings of the Commission staff of the ability to increase rates as high as 10.3 % to meet revenue requirements would be the prudent adjustment to make at this time.

It is respectfully requested that the commission grant the Grayson County Water District the rates as calculated by Commission staff as shown in attachment C. It is further requested that these rates be applicable to its wholesale customers as well as its retail customers.

By applying the 10.3% increase it is expected that Grayson's revenue from sales will increase to \$3,118,869 or an increase of \$291,390 annually.

It is further understood that Grayson will have to provide customer notice of the newly requested rates which will be accomplished by advertisement in the Counties largest circulating paper. A copy of which will be forwarded to the commission when the proper advertisement has circulated and an affidavit and tare sheet is received by the District.

If any additional information is need please feel free to contact me or Mr. Kevin Shaw, Manager of the Grayson County Water District at (270) 259-2917.

  
John Tomes

Chairman of the Board of Grayson County Water District
