PUBLIC SERVICE  
COMMISSION

Lebanon Jct., Ky  
July 4, 2008

Dear Sirs:

I am very upset with Kentucky Utilities and Louisville Gas & Electric wanting to raise their rates during this difficult time with high gas and food cost. People are struggling just to try and make it.

I am on Social Security and were are just holding our head above water. Being on a fixed income hurts. May have to go back to work at 75 yrs old. That a shame. These are supposed to be your golden years. What a joke!

Please, Please, Please do not let them raise their rates on either company.

It would be so unfair for these poor working families, they don't need this extra burden!

Thank you

Pl these foreclosure  
people don't need.
