PUBLIC SERVICE
COMMISSION

I am writing in regards to the adjustment (another nice word for increasing your charges) of Louisville Gas & Electric's request for charges in electric and gas rates to become effective on or after September 1, 2008.

I am adamantly appased to these increased prices. As a senior citizen, it seems to me we are being hit from every direction in constantly increased prices. It is hard enough trying to keep up with medical, drugs, groceries, transportation, let alone gas & electric charges being increased again.

It seems to me Louisville Gas & Electric Co. seems to be making a large enough profit with out increasing their charges again.

Since Louisville Gas & Electric Co. was sold, they have been increasing their charges on a regular basis, not thinking of their customer.

Please reconsider their request for a increase in charges

Sincerely,
Marita F. Yeager
