Reference Case No. 2008-00030

Please reject Farmers Rural Electric Cooperative Corporations request for a rate increase for their customers in Glasgow KY.

For residential customers an increase of 14.7% plus a \$9.00 Customer charge is ridiculous!

This in effect would equal to a 25% rate increase for most customers.

Who in the world can justify giving themselves a 25% raise?

Especially now in the midst of these troubled economic times.

Almost every industry out there, Auto, Financial, Manufacturing, etc... including the company I work for, are having to reduce the prices they charge for the products and services they provide.

FRECC should be no different.

The Working Man cannot stand this rate increase right in the middle of this recession/depression were suffering through.

Please Help  
Respectfully,

T. Scott Riddle
